At it again, Drs. Flavio Fenton and Elizabeth Cherry were featured in the Pittsburgh Supercomputer annual report for their work regarding Far-Field Antifibrillation Pacing (FFAP).

As quoted from the report:

A novel low-energy method of defibrillation shows promise to successfully treat heart arrhythmias with less pain and tissue damage than current defibrillation methods.

Aly Spealman Nadworny was recently named a "Rock Star of Science" by the American Heart Association and was invited as a special guest to attend the American Heart Association's 11th Annual Go Red for Women Luncheon in New York City. The Go Red for Women campaign centers around the power of women to fight the number 1 and number 4 killers of women in the United States, heart disease and stroke. This year's luncheon was sponsored by Macy's, Merck, and Geoffrey Beene Gives Back, all of which are very interested in the basic research that often leads to cures for major diseases affecting people worldwide. Those in attendance included Hoda Kotb, Mary Tyler Moore, and survivor Pamela Coleman. Go Aly, you Rockstar!

See Aly on Cornell Cast’s “Paint the Town Red” segment where she talks about her experiences as part of the Linkage program: Click Here!

Administrative Staff in The College of Veterinary Medicine are invited to Administrative Networking Lunches (you bring your lunch - Beverage and Cookies provided). These luncheons are held once a month. The next Administrative Networking Lunch will be April 21, 2011 from 12-1pm in the Hagan Room.

**BIOMEDICAL SCIENCES SEMINAR SERIES**

**APRIL 12**

**DR. JIANRONG LU**  
Assistant Professor  
Department of Biochemistry & Molecular Biology  
University of Florida, College of Medicine  
Gainesville, FL  
“CTCF-Dependent Chromatin Insulation in Tumor Angiogenesis”

**APRIL 25**

**DEPARTMENT OF BIOMEDICAL SCIENCES**  
**SURGICAL PATHOLOGY SEMINAR**  
**NOTE CHANGE IN DAY:**  
**MONDAY, 4:00-5:00PM; VRT LECTURE HALL III**  
**DR. ROBERT W. DUNSTAN**  
DVM, MS, DACVP, Distinguished Investigator,  
**Biogen Idec**  
Cambridge, MA  
“Knowing AND Defining What You See – Changing Anatomic Pathology Through Morphometry”

**APRIL 26**

**TUESDAY, 8:00-9:00AM; A1-201 AHDC**  
Slide Presentation with Pathology Faculty and Residents

Dr. Erin Daugherity, a Clinical Fellow mentored by Drs. Kirk Mauer and Bob Weiss, was recognized for a 'Poster of Distinction' at the Digestive Disease Week Meeting based on her abstract, entitled "Excessive Dietary Fat Consumption in Mice Induces Hepatic Apoptosis Through the DNA Damage Checkpoint Protein Atm".
